1. Safety Information

For the efficient and safe operation of your device, read this information before using ReFlex Two Way Messenger (H200).

Pager Transmitter Safety

The FAA has regulations concerning the use of electric devices aboard aircraft.

When boarding an aircraft, turn your device off to avoid potential interference with aircraft radio communication or navigation equipment.

In blasting zones or wherever it is forbidden to use it, set the TX mode to OFF. This prevents potential transmission interference with sensitive equipment or explosives devices.

Using your device in a vehicle

Safety comes first, and is the ultimate responsibility of the driver. Please:

- i) Give full attention to driving – driving safely is your first responsibility.
- ii) If you receive message or want to write message during you drive vehicle, pull off the road and park your vehicle before reading or writing a message in driving conditions so require.

For Vehicle Equipped with an Air Bag

An air bag inflates with great force. Do not place objects, including both installed or portable wireless equipment, in the area over the air bag or in the air bag development area. If in-vehicle wireless equipment is improperly installed and the air bag inflates, serious injury could result.

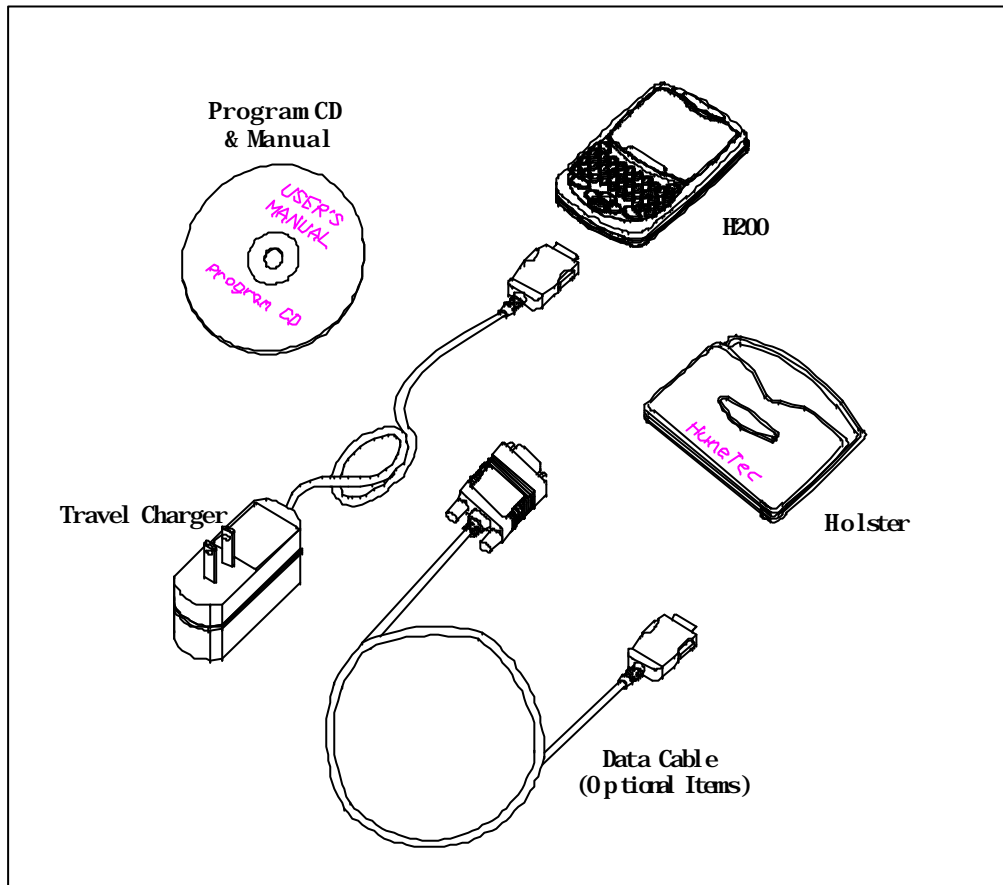

Explosive Atmospheres and materials

Turn your device off when in any area with potentially explosive atmospheres and obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death. Areas with a potentially explosive atmosphere are often, but not always, clearly marked. They include fueling areas such as gasoline stations ; below deck on boats, fuel or chemical transfer or storage vehicles using contains liquefied petroleum gas (such as propane or butane) ; areas where the air contains chemicals or particles, such as ; grain, dust, or metal powders; and any other area where you would normally be advised to turn off your vehicle's engine.

2. Before You Start

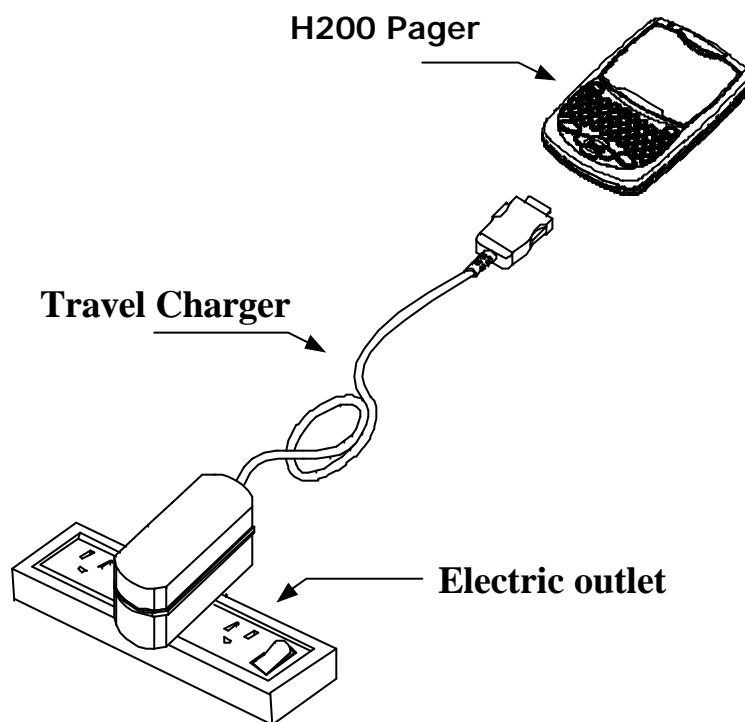

2-1. What's in the Box?

When you unpack the box, it contains H200 with following accessories as shown below.

2.2 How to charge battery

Battery is not charged when you first purchase the device. You must charge the battery full before using the device as below instruction.

- Plug your charger into a main socket first.
- Insert the DC plug of the charger into the bottom of device. “ “ on DC plug must face up.
- Charging is complete when the LED on device is colored green.
- When the charging is complete, please unplug your device from its charger, grasp and pull the plug, not the power cord.

● Battery Charging Indicator

	Charging in process	Charging completed
LED in Device	Red light	Green light
Charger Indicator	Red light	Green light

*** NOTES :**

1. Time to complete Battery charging is approximately two to three hours.
2. You can send and receive message while charging your device.
3. Battery Life time in one time full charging is about 7 days in normal Network Service Condition.
4. Standby time of battery may be reduced if device is in the No Network Service area.
5. If the battery is drained out completely and H200 power off automatically, you need to charge the battery for 5 ~ 10 min. to power on again.

2.3 Using the Holster

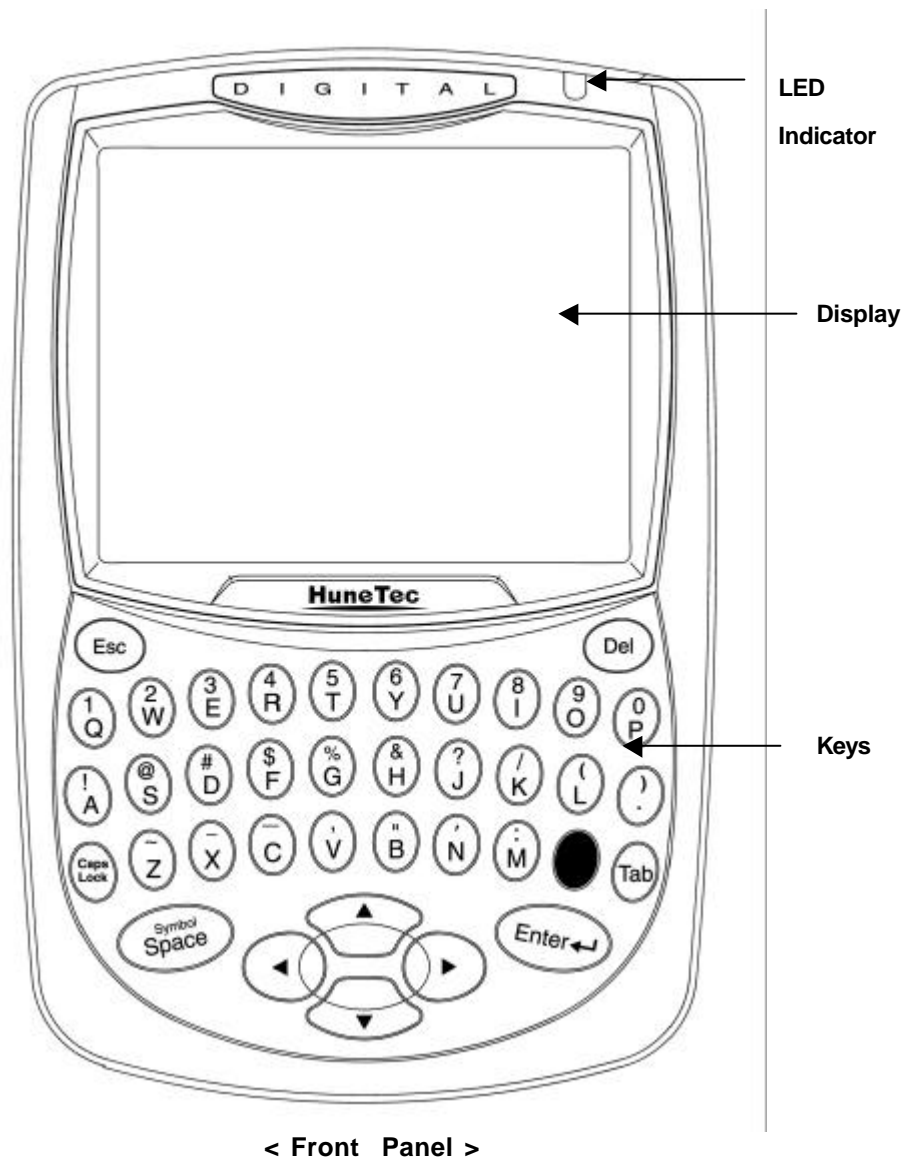

1. Please attach the Holster to your Belt.
2. Insert the H200 into the Holster with Power button at the bottom and LCD display facing inward as shown in below Figure.

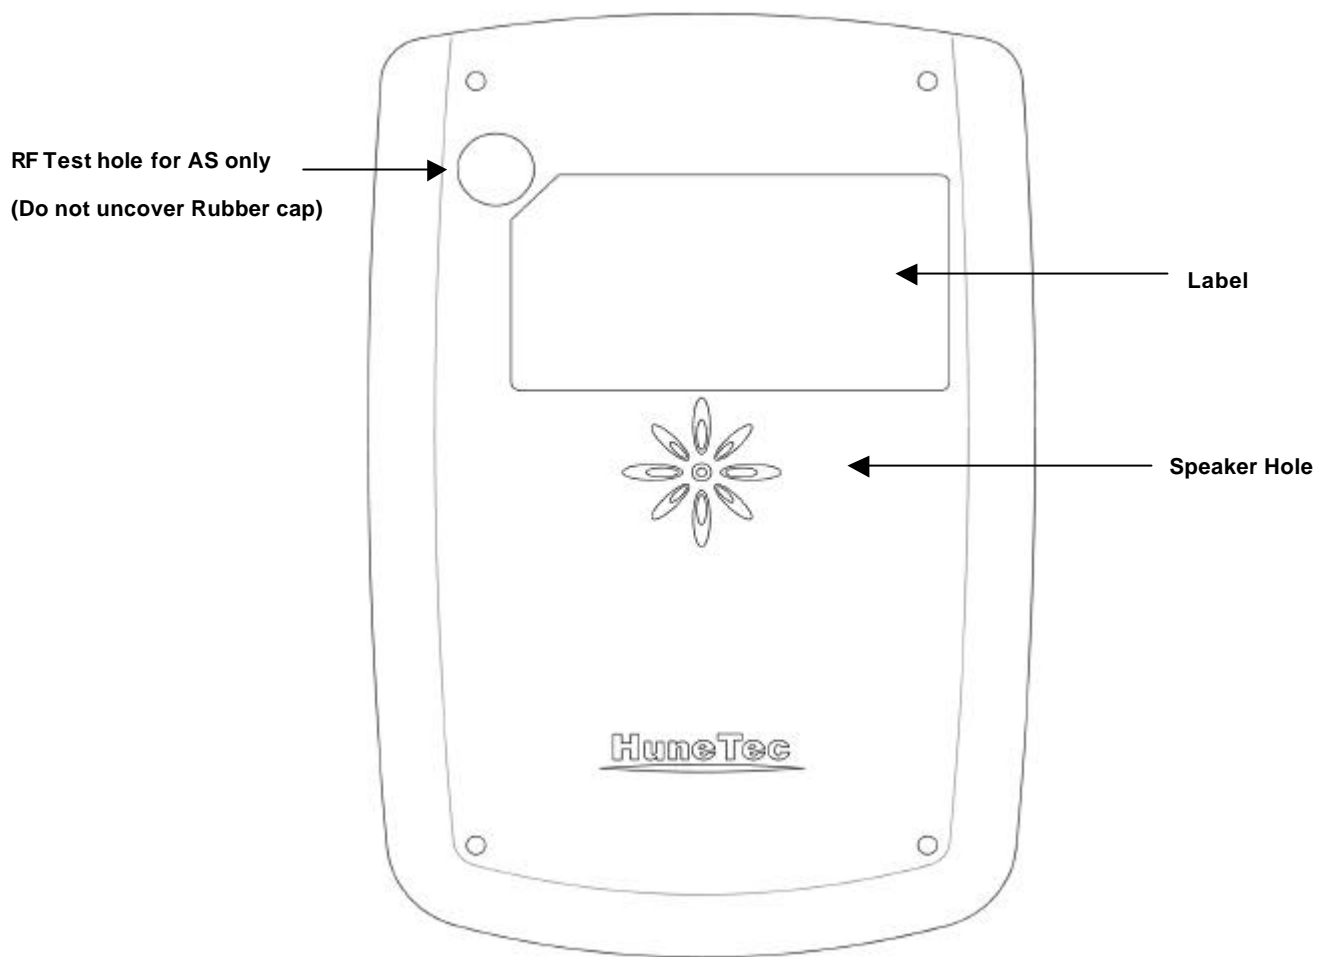

3. About Your Device

3.7 LED INDICATOR

Your device LED radiates 3 Color light

- When new message arrived – Yellow Green Color
- During device charging with charger – Red Color
- When device complete charging – Green Color

4. Getting Started

4.1 How to switch device on and off

Press **Power** Button on the left side over 3 sec to switch device on.

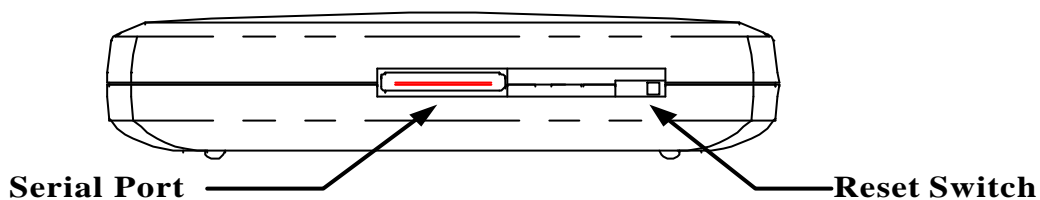

Press **Power** Button on the right side over 4 sec to switch device off.

4.2 How to reset device

In case of abnormal operation with H200, you may reset the device with the reset switch on the

bottom side. You can uncover rubber cap on the bottom of device and find reset switch which is colored blue. And then, push reset switch to the right and return to the left again by using pointed tool.

* Note : When you reset your device, the volatilized data in Inbox and Sentbox which does not saved in Flash memory shall be removed. Your device move the volatilized data to Flash memory at 02:00 am everyday and when the battery level becomes below 20%.

4.3 How to turn on backlight

The LCD Screen and keyboard keys can be backlit by pressing **Power** button.

Press **Power** button for 2 sec to turn on backlight and the back light shall be turned off automatically when the device has been idle for some time.

4.4 How to lock keyboard

If you want to lock all keyboard, pull **Hold** Switch down which is located in left side.

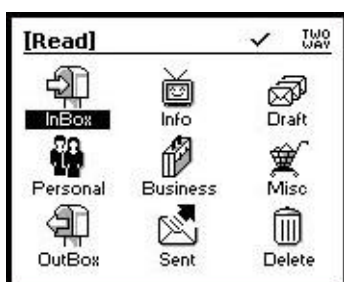

To exit, pull **Hold** Switch up.

5. Read Message

You can read and respond to incoming messages & Info, forward and delete messages. It also allows you to manage inbox, Info, Draft, Personal / Business / Misc group, Outbox, Sent and Delete menu.

Figure Read-1 appears when you select Read in the main menu screen.

Read menu has the following 9 sub menus.

< Figure Read-1 >

You can move to the message folder you want using Navigation keys and press **Enter** key to select the relevant folder. Also, you can move to the folder you want directly pressing the initial alphabet such as “**D**” for “Draft”

5-0 When a new message arrives

When you receive a new message, Popup box appears as shown in Figure Recv-1 screen.

If you want to read a message at that moment, select **[Yes]** to go directly to Inbox Message view screen. If not, select **[No]** to go back to the previous screen.

<Figure Recv -1>

* Note : If you receive a new message during writing a message or setting the device, please select **[No]** not to lose the contents you made.

5.1 Inbox

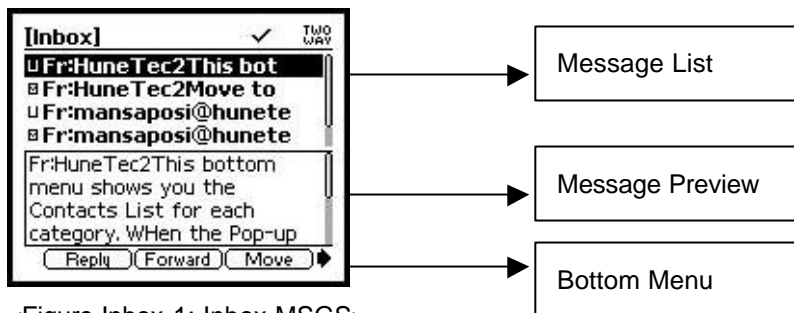

All received messages are saved in Inbox folder.

Upper box shows the message list with an Icon indicating its current status and lower box shows the contents of message.

Up/Down direction key is used to move the message you want to read in the list.

And **Left/Right** direction key is used to read the contents in the Message Preview box if the message is long.

Press **Enter** key to open the message while a list is selected for viewing in Figure Inbox-2.

<Figure Inbox-1: Inbox MSGS>

* Note : You can easily delete the highlighted message in Inbox MSGS list screen pressing the **Delete** key.

<Figure Inbox-2: Message View>

After reading the message view, you can select the function of bottom menu in figure Inbox-1 and / or figure Inbox-2 by pressing the **Tab** key.

You can move to the bottom menu you want using the **Left** and **Right** Key and press **Enter** key to execute the function.

Feature of Bottom Menu

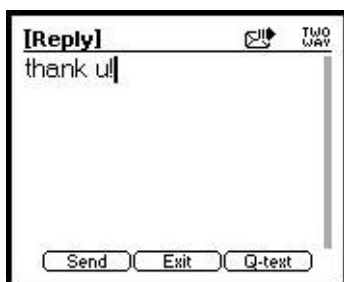

(1) Reply

When you select the **Reply** in bottom menu, the Figure Reply-1 will be opened.

<Figure Reply-1>

If you want to write a new message in <Figure Reply-1>, select the **Custom Message** menu to display the screen in <Figure Reply-2>. If you want to send multi-choice or canned message, select the message you want with **Up/Down** key and press **Enter** key. Then, the selected message will be sent immediately.

<Figure Reply-2>

After selection of custom message, write the relevant message in <Figure Reply-2> and select **Send** function in the bottom menu to send the message. If you select **Q-text** in the bottom menu, the list of text you stored in Pref. menu will be opened as shown in the screen of Figure Qtext-1.

<Figure Qtext-1>

Select the content you want to enter among the lists with **Up/Down** key and press **Enter** key. Then the text you selected will be added to your message.

* Note : Refer to **Q text** menu function in Preference.

(2) Forward

You can forward the received message to other address as below.

- Select the **Forward** in the bottom menu during the <Figure Wirte-1> is opened.
- Select the address in your address book or add the One Time Address / New address

by pressing **Enter** Key.

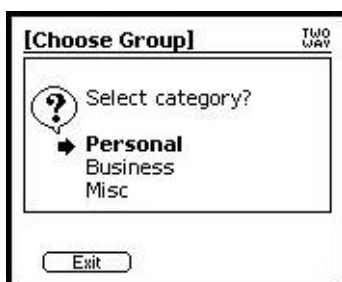

- Select the **"Compose"** in the bottom menu using **Tab** key and press **Enter** Key.
- Add any text to Message if you want.
- Select the **Send** in the bottom menu using **Tab** Key and press **Enter** key.

* Note : You can refer to the **Write** menu for more detail information.

(3) Move

If you select **Move** in the bottom menu, the screen of <Figure Move-1> appears and you can move the message you select to the other folder.

After selecting the folder you want among three folders (Personal, Business, Misc), press **Enter** key to move the message to the selected folder. Then, **"Moving Message"** will be displayed during the processing and return to the Inbox list screen.

<Figure Move-1>

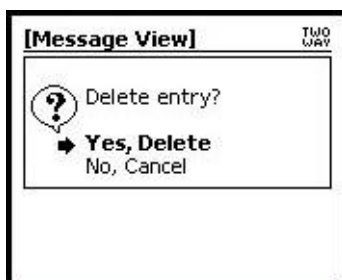

4) Delete

Select **Delete** in bottom menu to delete the current highlighted list and/or opened contents.

Then, popup box **"Delete entry ?"** as shown in the <Figure Delete-1> will be appeared.

Select **"Yes"** if you want to delete, and **"No"** if you don't want to delete using **Up/Down** key and **Enter** key.

Press **Esc** key to go back to previous screen.

<Figure Delete-1>

5.2 Info

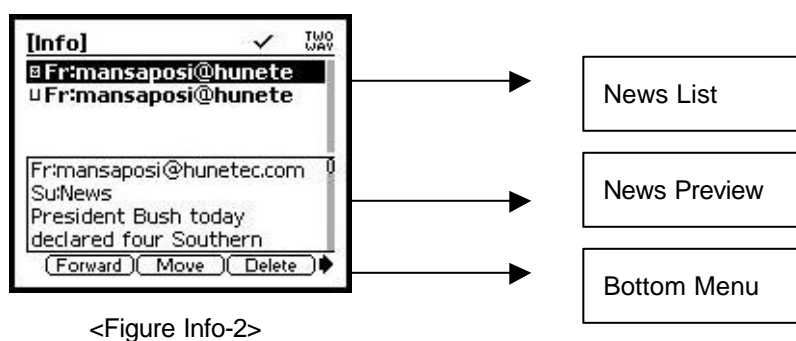

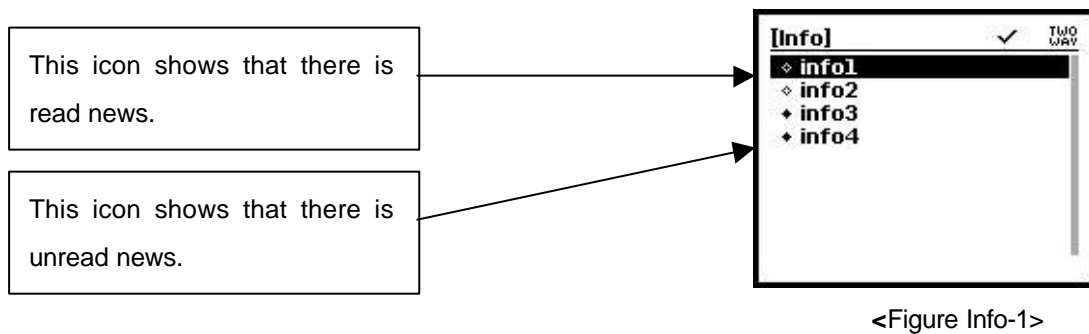

Info folder saves all Info messages from your service provider and display information data if you are subscribed to news/information services.

Select Info icon to display <Figure Info-1>. Regular information comes in this folder.

You can save up to 16 kinds of information. If you select Info you want to view, <Figure Info-2> screen appears.

Select the message you want in <Figure Info-2> screen and press **Enter** key to display <Figure Info-3> screen.

You can **Forward**, **Move** or **Delete** the information data using the bottom menu of <Figure Info-2> and <Figure Info-3>.

<Figure Info-3>

5.3 Draft

You can record and temporarily save the message.

If you select **save** function in the bottom menu during writing a message, the message is saved in this folder. And if there is a new arrived message during your composition, the composed message shall be saved to Draft Folder automatically. Initial screen is as shown in the screen of <Figure Draft-1>.

<Figure Draft-1>

5.3.1 Editing the Draft message

If there is any draft message you want to modify, press **Enter** key when the list is highlighted. Then, the screen of Draft View Screen <Figure Draft-2> will be opened so you can modify. And you can save the modified draft message in Draft folder again selecting the **Save** in the bottom menu.

5.3.2 Sending the Draft message

If you want to send the message from the Draft Folder, select the **"Send"** in the bottom menu from the Draft Screen and/or Draft View Screen. Then, screen moves to the screen of <Figure Write-1>. And follow the Writing Process to send a message.

5.3.3 Deleting the Draft message

If you want to delete the relevant draft message from the Draft Screen and/or Draft View Screen, select "**Delete**" in the bottom menu. Select "**Yes**" when "**Delete entry?**" pops up.

Or you can delete the highlighted message pressing **Delete** key in Draft Screen<Figure Draft-2> or Draft List Screen <Figure Draft-1>.

<Figure Draft-2>

5.4 Personal / Business / Misc

This folder allows you to classify Received messages and/or Sent messages according to kinds of messages.

You can select the message in these folder and then send the message using **Forward** in the bottom menu. And you can follow the instruction same as the Write menu.

If you want to move the message to other folder, please select **Move** in the bottom menu.

If can delete the message from these folder selecting **Delete** in the bottom menu.

An example of Personal folder is as Figure Personal-1 and the others are same as it.

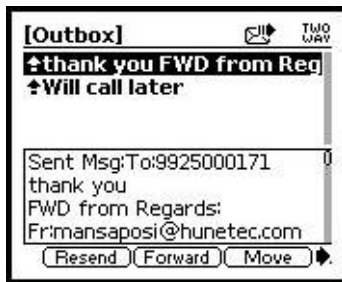

<Figure Personal-1>

5.5 Outbox

This folder is to show the message on sending process or the message to be failed sending. When Outbox folder is selected, screen of Figure Outbox-1 will appear.

You can **Resend**, **Forward**, **Move** or **Delete** the highlighted and / or selected message using the bottom menu in this folder. Follow the same procedure as Inbox menu. However, **Resend**, **Delete** and **Move** are not possible for the message which is on sending process.

<Figure Outbox-1>

5.6 Sent

This folder is to show the messages successfully sent.

Screen of Figure Sent-1 will appear when you select one message among the Sent message list.

You can **Resend**, **Forward**, **Move** or **Delete** the highlighted and/or selected message using the bottom menu in this folder. Follow the same procedure as Inbox menu.

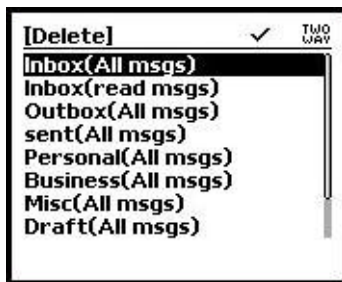

<Figure Sent-1>

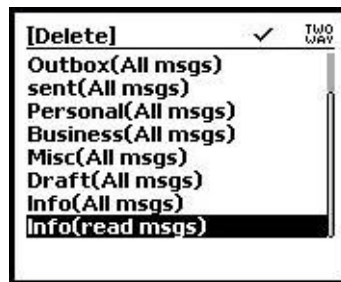

5.7 Delete

This folder allows you to delete the all message in storage box one time. It will display the Delete screen of <Figure`Delete-1>, <Figure Delete-2> when this folder is selected in Main menu screen.

When each storage box is selected with **Up/Down** key, press **Enter** key, Then, a popup box "**Delete Entry ?**" appears. Select "**YES**" to delete all messages or select "**No**" if you don't want to delete.

<Figure Delete-1>

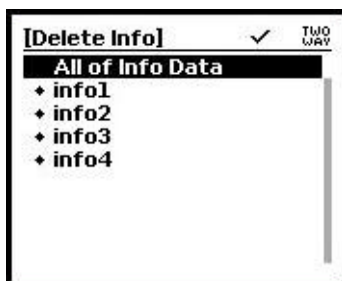

<Figure Delete-2>

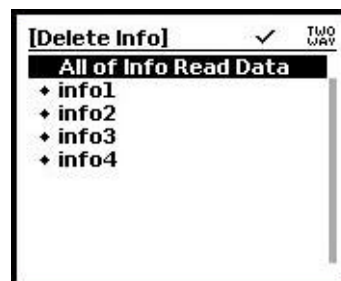

If you select Info groups, the kinds of Info will be shown in <Figure Delete-3>.

Select and delete the kinds of Info you want here.

If you want to clear all Info. Folders one time, please select “**All of Info Data**” or “**All of Info Read Data**” .

<Figure Delete-3>

<Figure Delete-4>

6. Write Message

You can compose a message using the QWERTY keyboard, insert Quick text and other features in this menu and can send messages to wireless and email addresses.

6.1 How to select the addresses

Select Write in menu screen using navigation key and press **Enter** key.

Then, the Select Address Screen <Figure Write-1> will be displayed.

If there exists in the address book, the recipient you want to send the message to, move to the relevant item with **Up/Down** key and press **Enter** key for selection. Then “ ” shall be showed in front of the selected address.

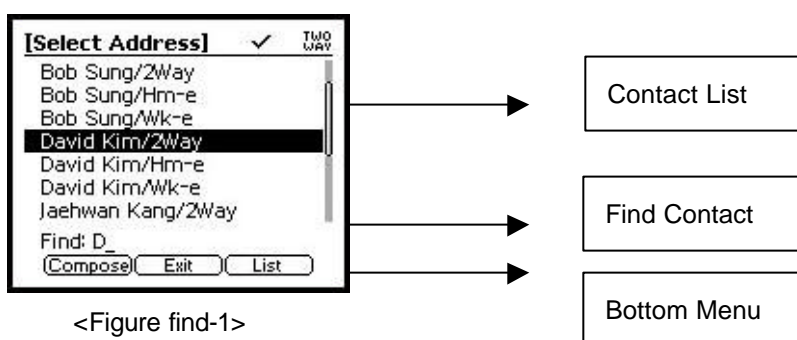

When you select the **One Time Address**, the screen of <Figure Write-2> appears so that you can directly enter the address to be used one time only and press **Enter** key.

When you press **Enter** key after entering the one time address, the cursor moves to Compose in the bottom menu.

You can also add new address by selecting **New Address** in the screen of <Figure Write-1>.

You can follow the Contact procedure after selecting **New Address**. After entering address, select the **Save** function in bottom menu. Then, it will return to the screen of <Figure Write-1> and checkmark appears in the new user data.

* Note : For quick searching the address of recipient you want, type in the alphabet of the name. Then, cursor will move to the relevant recipient directly. For example, if you want to find recipient "David Kim" as shown in Figure find-1, type "david kim" regardless of small or capital letter. Then, the cursor will move to the relevant address directly.

<Figure Write-1>

<Figure Write-2>

Feature of Bottom Menu

(1) Compose

If all addresses are selected with “ ” mark, select **Compose** in the bottom menu to compose a message. Please press **Tab** key to move bottom menu and **Enter** key when Compose is highlighted. Then, the screen of <Figure Write-4> appears.

(2) Exit

Return to the previous screen.

(3) List

When you select the **List** in the bottom menu, the screen shows the list of the selected recipient.<Figure Write-3>. If there is unnecessary address among the list, you can delete the address using the **Delete** in the bottom menu. If you select the **Return**, it will return to the previous screen.

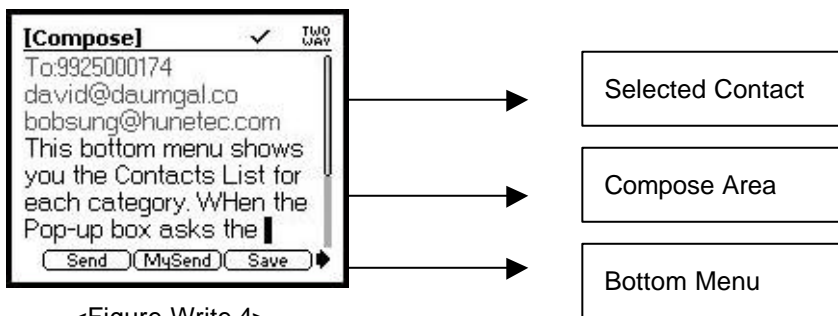

<Figure Write-3>

6.2 How to compose message

After selection of addresses you want, select **Compose** in the bottom menu.

<Figure Write-4> will be displayed in **Compose** selection and you can compose your message with QWERTY keyboard and bottom menu.

<Figure Write-4>

Feature of Bottom Menu

(1) Send

Edit and/or modify the message as you want in <Figure Write-4> screen and select **Send** in the bottom menu to send a message to the recipient you selected.

(2) Mysend (option item for Service provider)

Edit and/or modify the message as you want in <Figure Write-4> screen and select **Mysend** in

the bottom menu to send a message to the recipient you selected through the Mymail address which was set in MyMail Server. (Detailed information for **Mysend**, please contact the Service provider.)

(3) Save

Select the **Save** function in the bottom menu in <Figure Write-4> screen to save the message to the Draft folder and then it will return to Main Menu Screen.

(4) Edit To

Edit To function enables to go back to the screen of Select Address for adding the address.

After adding the necessary address, you can return to the previous screen selecting **Compose** again in the bottom menu.

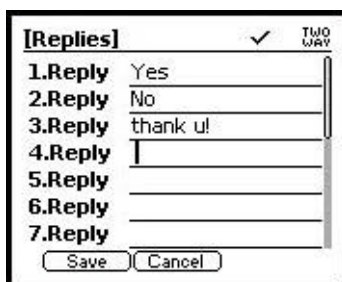

* Notes : If you want to add other address during composing the message, you can press **ESC** key or move the cursor **To field** and press any key. Then, it will return to the screen of Select Address.

(5) Q-text

Q-text function enables you to add Q-text which was set in Preference. You can select the Q-text you want with **Up/Down** key and press **Enter** key. Then, the highlighted text will be added to your message. Please refer to the Preference for detailed information.

(6) Replies

If you select **Replies** in the bottom menu of <Figure Write-4> screen, you can add the Option of Replies you want. After adding the wanted replies up to 16 items (max.), save them using the bottom menu with **Tap** key and **Enter** key. Then, the Replies will be sent together with message you compose. Refer to the <Figure Wirte-5>.

The screenshot shows a dialog box titled "[Replies]" with a checkmark icon and a "Two Way" checkbox. It contains a list of seven reply options, each with a label and a text input field:

Label	Text
1.Reply	Yes
2.Reply	No
3.Reply	thank u!
4.Reply	
5.Reply	
6.Reply	
7.Reply	

At the bottom of the dialog box are two buttons: "Save" and "Cancel".

<Figure Write-5>

7. Contact

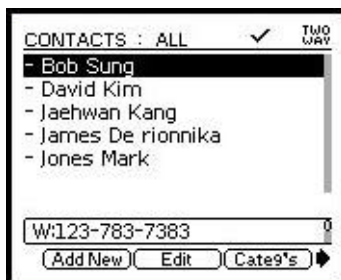

You can store the address information of each person or group you might want to contact. You can include name, email address, work & home phone number and even address for each contact entry.

7.1 Contact List (Screen showing the list of stored address)

20. Device and Battery Care

- 1) Use only approved battery and power charger. Charging battery by any other method or unauthorized product may cause damage to the battery

- 2) Keep in mind that a new battery's full performance is achieved only after two or three times of completed charging
- 3) The battery can be charged and discharged hundreds of times but it will eventually wear out. When the operating time is noticeably shorter than normal, it is time to change to new battery.
- 4) Do not use device in the high temperature and humidity
- 5) Battery must be recycled or disposed of properly and never dispose of batteries in a fire.
- 6) Do not drop, knock and shake device
- 7) Do not use harsh chemicals, cleaning solvents, or strong detergents to clean device. Wipe it with a soft cloth slightly dampened in a mild soap-and-water solution.
- 8) Do not attempt to open the casing on your device.
- 9) Do not expose device or charger to rain or snow. If device is flooded, never turn on power and ask service center.

21. Trouble Shooting

1. Screen cannot be turned on at all.
It is because the batter is completely exhausted. Use it after charging.
2. Key is not pressed.
It is because Key is put on a hold. Release **Hold** Key.
3. When I turn on the power, it is turned off immediately.
Battery is completely discharged. Use it after charging.
4. I cannot hear the sound when I receive a message.
 - 4.1 Your phone is set in Mute mode or the message receiving sound of Inbox is silent.
Select Melody in Pref-> 3. Sound Setting-> 3. Alert Types.
Select other sounds except Silent / Vibrate in Pref-> 3. Sound Setting-> 2. Alert-> 1. Inbox Alert.
 - 4.2 If Private Time is set on and it is in that period, the sound will not occur. If you want to release Private Time, select Off in Set Item in Pref-> 6. Private Time.
5. I cannot send a message.
Check whether it is in Two Way state at present.

If it is not Two Way status, it is stored in Outbox temporarily and will be automatically sent if it is Two Way.

Contact your service provider if you still cannot send a message when it is in Two Way status.

6. I cannot see the screen clearly.

It is because Contrast is set too high or low.

Adjust it properly in Pref-> 10. Miscellaneous-> 3. Contrast.

7. I can see the screen but it does not operate at all.

Turn off the power by pressing **Power** Key in the upper left of the terminal for about 4 seconds and then press that key again to turn it on.

If it still does not operate, push off the Reset key to the right located at the right bottom of the terminal and push it off to the left to turn it on.

(Caution) It will result in deleting all the messages you saved.

8. Backlight is not turned on.

Press **Power** Key located at the upper left of the terminal for about 2 seconds.

9. I locked it but forgot the password.

Please visit A/S center to release the Password.

Initial Lock Password is '0000'.

10. The letter is too small.

It is because it is set as Small Font.

Select Large Font in Pref-> 4. Font.

11. I cannot write the letter I want, instead, symbol is written.

It is in Alt Lock mode. Press Alt key to release Alt mode.

12. Periodically, the date and time are incorrect.

Please go to preference menu from the main screen and then select "4. Setup"

And select "1. Set Date & Time" and set the current Date and Time again.

And set Date and Time on "2. Set time"

13. No SVC icon appears or Fail to send message

You probably are in the area out of the coverage of a ReFLEX network.

22. FCC Compliance Statement

This equipment has been tested and found to comply with the limits for a Class B Digital Device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception. Which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures :

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver

---- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected

---- Consult the dealer or an experienced radio/TV technician for help.
